DETAILED ACTION

1. This office action is in response to the arguments and amendments filed on 22 July 2010.

Allowable Subject Matter

2. Claims 7-13, 15-18, 20-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: the limitation "a coolant flow discharge channel that is formed within a portion of the support structure so as to direct the coolant flow from the internal [space/region] under the sealing element to the cooling gaps" found in claims 7, 15 and 20 is not taught or fairly suggested in any of the prior arts of record. The closest prior art of record, Maghon US 2003/0010038 discloses a plurality of obliquely angled cooling channels adapted to provide cooling air from an internal space/region to a cooling gap; however, the cooling channels are not formed within a portion of the support structure and under the sealing element. The claims recite numerous well known elements such as heat shields, sealing elements, support structures and gaps between the heat shields (see Kreis 2001/0005555); however, no prior art of record contemplates a cooling channels formed within the structure and under a sealing element. One of ordinary skill in the art at the time of the invention would not have found it obvious to modify the prior art references to include a cooling channel formed within a portion of the support structure so as to direct the coolant flow from an internal space/region under a sealing element to the cooling gaps without improper hindsight because no prior art references teach or fairly suggest a cooling channel as claimed and such a modification to the references of

Art Unit: 3741

Maghon, Kreis or any other prior art of record would substantially modify the respective prior art structure without motivation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
